DAVE MARK H. CANDAR

Software Engineer/Full Stack Developer

SKILLS

- **FULL STACK DEVELOPMENT**
  - Web Design
  - Database Design
  - Frontend Development
  - Backend Development

- **UI / UX**
  - FIGMA, ADOBE XD, PHOTOSHOP

- **Database Management**
  - MySQL, SQL, RDS, MongoDB, Posgresql

- **Programming Languages**
  - PHP, JavaScript, CSS, HTML, Python, Node, AWS SERVICES

- **Frameworks**
  - Codeigniter
  - Laravel
  - React Native, Vue, ReactJs
  - SASS, Bootstrap, Tailwind
  - Chalice, Lambda, Serverless Framework

- **CMS**
  - Wordpress, Custom CMS (custom code)

- **Dev Ops**
  - Linux OS, Windows, Mac
  - Docker
  - Apache, Nginx Setup
  - DNS Management
  - AWS services
  - Wordpress, Custom CMS (custom code)
  - CI/CD

- **Code Versioning Tool**
  - Github
  - BitBucket
  - GitLab

Contact

- +639948739589
- Davemarkcandar@gmail.com
- https://ahc45.github.io/Portfolio/
- Blk 3, Lot 6, Carey Homes, Summitvile, Putatannn, Philippines

Educational Background

- **International Electronics and Technical Institute**
  Bachelor of Science In Information Technology — *2019*

- **TESDA**
  Web Development — *2017*
  Mechatronics NC2 — *2017*

FEATURED STACKS / years experienced

Stack	Years	Stack	Years	Stack	Years
Laravel	4 yrs	PostgreSql	3 yrs	PHP	5 yrs
Mysql	5 yrs	ReactJS	6 yrs	Jquery	5 yrs
Services (AWS)	4 yrs	Python	3 yrs		

Online Profile

- https://www.sololearn.com/profile/1098357

Casting App

- Collaborated in agile development cycles through sprint planning and backlog grooming to help the team consistently meet weekly goals.

- Worked closely with cross-functional teams to integrate connected services and APIs, ensuring seamless data and service flows across the platform.

- Actively suggested innovative ideas based on experience to streamline processes and enhance overall system performance.

- Solved critical technical bottlenecks by designing and implementing ETL (Extract, Transform, Load) workflows using AWS serverless technologies, including Lambda, S3, and Step Functions.

- Optimized performance of React-based web applications and underlying databases to improve load times, responsiveness, and query efficiency.

Software Engineer

- Present
- 08 – 2024

Stacks Experience

|				
Laravel	Tailwind	Step Function	PostgreSql	GitHub
Linux	redis	CI/CD	aws	Docker	Serverless	Python
React	Lambda	GraphQL	Dropbox	SQS	NodeJs

Mosaic Solutions

- Spearheaded database optimization and proficient schema management, ensuring efficient data storage and retrieval.

- Proactively engaged in bug resolution and feature development, contributing to the continuous improvement of the platform.

- Actively suggested innovative ideas based on experience to streamline processes and enhance overall system performance.

- Implemented effective caching strategies for expedited big data retrieval, optimizing system responsiveness.

- Demonstrated expertise in suggesting and implementing workarounds for ETL processes, ensuring smooth and efficient data workflows.

Software Engineer

- 08 – 2024
- 09 – 2023

Stacks Experience

Laravel	Tailwind	aws	PHP	vue/Nuxt	PostgreSql	GitHub
Linux	redis	SASS	Nginx	Docker	Lambda	SQS
React	Docker	CI/CD	SNS	Python	NodeJs

Partsman PH

- Led the development of e-commerce platform by translating requirements into working solutions.

- Undertook end-to-end platform development, spanning from design conceptualization to the implementation of front-end and back-end functionalities.

- Successfully aligned platform goals with tangible functional features.

- Demonstrated proficiency in server handling and deployment processes.

- Designed and managed the database to ensure efficient data organization and retrieval.

- Actively supervised and mentored a team of 2 Senior and 2 junior developers to maintain high-quality code standards and project coherence.

CTO
- 08 - 2023
- 03- 2023 (Full Time)
- 03- 2022 (Part Time)

Stacks Experience

Laravel · Tailwind · AWS · PHP · React · Firebase · GitHub
PostgreSql · Linux · Jquery · SASS · Nginx · Google Maps Platform · CI/CD

Nuworks Interactive Labs Inc.

- Spearheaded the development of various features and modules, showcasing leadership in select projects.

- Demonstrated proficiency in bug fixing and maintaining the stability of both frontend and backend development.

- Successfully managed server handling and deployment operations, ensuring efficient application performance.

- Developed a Web-based music mixer, showcasing innovation and creativity in web application development.

- Contributed to the creation of an Analytics Dashboard, instrumental in company-wide decision-making processes.

- Engaged in industry-specific projects spanning E-commerce and Learning Management Systems (LMS).

- Project websites optimizations

FULL STACK DEVELOPER
- 03-2023
- 12-2021

Stacks Experience

Laravel · Tailwind · AWS · PHP · React · Wordpress · Python · Athena
Mysql · Linux · Jquery · SASS · Nginx · Docker · MongoDB · NodeJs
Nginx · HUGO · Lambda · Flask · NEXT.js · Athena · PostgreSql

Kurin PH

- Engineered and seamlessly integrated a payment gateway utilizing Xendit, ensuring secure and efficient transaction processing.

- Led database design initiatives, optimizing data storage and retrieval mechanisms for enhanced system performance.

- Spearheaded rigorous quality assurance testing protocols to validate system reliability and performance consistency.

- Provided expert consultation on automation strategies, driving operational efficiency and resource optimization.

- Facilitated seamless integration of marketing tools to enhance brand visibility and customer engagement.

Kyna Technologies

- Orchestrated platform maintenance activities encompassing bug resolution and feature enrichment, ensuring optimal system performance.

- Engaged in concurrent management of multiple projects, demonstrating adaptability and proficiency in handling diverse project requirements.

- Designed and developed robust RESTful APIs, fostering seamless communication between various system components.

- Undertook database management and optimization efforts, enhancing data storage efficiency and system responsiveness.

- Spearheaded mobile development initiatives utilizing React Native, delivering high-quality, cross-platform mobile applications to meet user needs and preferences.

Stacks Experience

Codeigniter   Mysql   Linux   php   Jquery   SASS   Wordpress   React

Day 1 Tech Inc

- Singlehandedly managed the platform's maintenance, encompassing bug fixing, feature development, and the steadfast commitment to maintaining high-performance standards.

- Effectively managed feature requirements to meet deadlines, demonstrating excellent project management skills.

- Led the design and development of user-friendly UI/UX interfaces, enhancing the overall user experience.

- Notable projects include the creation of a Custom-built CMS (Content Management System), showcasing expertise in content organization and management.

- Successfully developed a Custom Form Builder, contributing to improved data collection and user interactions.

- Designed and implemented a Custom-built Reports Builder, facilitating data analysis and reporting capabilities.
